In the United States, the fairness of college admission procedures may not be as straightforward as one might assume. “Affirmative action” and “legacy admissions” have ignited heated debates and ethical __41__ of these policies.

Affirmative action policies, introduced in the 1960s, aimed to ensure equal opportunities for individuals facing discrimination, including women and minorities. In the context of college admissions, this policy grants opportunities for Black, Hispanic, or Asian students to attend prestigious universities. Supporters argue that it promotes __42__ on campuses, while opponents contend that it exacerbates inequality and constitutes a different form of discrimination.

After a Supreme Court ruling that banned affirmative action, legacy admissions, intertwined with university __43__, have come under scrutiny. This practice, which began in the 1920s, encourages universities to admit children of alumni and donors. It is sensible that universities admit students who already have a connection with the __44__. Additionally, the practice incentivizes alumni to contribute more to their alma mater. While this may seem fair, the situation takes a different turn within the Ivy League, where reports suggest a higher acceptance rate for affluent students. Often called “neo-aristocracy,” legacy admissions can hinder social mobility, leaving individuals with a moral dilemma weighing on their __45__. Whether there will be another court ruling on this matter remains uncertain and will only become clear over time.

(A) assessments	(B) bureaucracy	(C) conscience
(D) diversity	(E) exploits	(F) institution

【題組四】

By the end of autumn, the approaching of an event was met with both excitement and worry. The annual Campus Fair, a tradition that everyone looked forward to, was just around the corner. As the fair's organizing committee gathered to discuss preparations, they faced a daunting challenge: the budget. The fair's popularity had declined over the years, but the ___46___ had skyrocketed.

Amelia, a high school senior, came up with a solution. She proposed marketing this activity to attract sponsors and advertisers. She believed it could turn the fair into a(n) ___47___ opportunity for the school. Her ideas received good response, and she took charge of the project. With creativity, Amelia designed an eye-catching brochure highlighting the fair's history, attractions, and the exposure sponsors would receive. She sent out ___48___ to local businesses, inviting them to participate in the activity.

Amelia's dedication and hard work weren't ___49___ endeavors; fellow students along with teachers shared her enthusiasm for reviving the Campus Fair. Local businesses saw the potential in supporting the fair and promoting their products. As responses surged in, it became evident that her plan was working. The ___50___ from sponsorships exceeded expectations, alleviating the financial concerns. Thanks to Amelia's idea, the Campus Fair was back on track to be a grand success.

(A) correspondence	(B) revenue	(C) lucrative
(D) expenditure	(E) solitary	(F) fertility
